**About St Gabriel’s School for Students with Hearing Impairment and other Special Needs**

St. Gabriel’s has been looking after children with hearing impairments since 1922 and is located at Castle Hill, in North West Sydney.

While continuing the proud tradition of support for children with hearing impairment, from the beginning of 2010 St. Gabriel’s now offers a range of programs catering for children with hearing impairment as well as those children with disabilities such as intellectual disability and autism in the mild to moderate range. These children may or may not have a hearing impairment.

**Why we need your support and fundraising**

St. Gabriel’s program is very labour intensive which results in higher costs - the high teacher to student ratio, small class sizes and the additional costs involved in resources and technology for children with special needs means that after available government funding and fees, there is a funding deficit each and every year that must be met by fundraising.

St. Gabriel’s simply could not exist without fundraising and community support. Continued funding is vital for the school to support these children in their learning and their families; to allow them to grow and to deliver on the goals of teaching our students to learn in the way they need to learn so that they may take an active and involved place in their world.

Funds raised from the Coleman Greig Annual Charity Golf Day are vital and will contribute to the lives of the children at St. Gabriel’s and their families by providing individual specialised educational programs and appropriate technological resources and support for our students with special needs, including hearing impairment, Autism, intellectual disabilities, Down Syndrome and developmental delays.

Your support gives them the best chance at a regular education at a school that caters for their whole person and works in partnership with their families to achieve the best outcomes for each child.
Auction Items
